NetXGATE RED-Junior

Zero-touch edge and branch connectivity

RED-Junior offers a uniquely simple solution to extend network connectivity to your remote locations and branch offices – no matter where in the world they are.

Securely encrypted, centrally managed

RED-Junior is the cost beneficial solution to connect all your distributed office networks to your Head Office and live track all the traffic through these offices. It also enables you to remotely connect to your main server through advanced VPN technology. It allows you to achieve **100% Uptime** through various advanced inbuilt features like **Bandwidth Aggregation and Multilink Failover** so you achieve increased productivity.

Product Features

Features	NetX RED Junior
Multi WAN Support	Yes
Failover	Yes
Policy Routing	Yes
No. Of Users	~15
4G Support	Yes
WAN Ports	2
LAN Ports	3
QoS Support	Yes
Wi-Fi Radio	2T2R
USB Port	1
SSL VPN	2
IPSec VPN	5
DNS & DHCP	Yes
Dimensions (mm)	130 x 90 x 25

1 Multi WAN Support , Internet Failover and Load Balancing

2 Seamless Integration with existing networks

3 Easily extend your secure network to any location
